

Smooth Side Landscape

Built to Perfection

DuraMag landscape bodies sport clean lines and a stylish appearance and are built with all aluminum box tube construction. The standard headboard is built using heavy duty long sills and cross members. Landscape bodies equipped with bolt on sides can be converted into a flat bed and are great jobs where side loading is required. Seasonally, landscape dump bodies can convert to chipper tops. When equipped with bolt on sides, the driver can get increased visibility for plowing snow.
