

HD Flatbed Bodies

A workhorse favorite.

The Monroe DuraMag HD Flatbed Series is strong enough to handle anything the truck is rated for and can be built to maximize your workday efficiency, with a straight truck or a dumping flatbed. Designed for larger Class Trucks and Heavy Loads, the HD Series is now the best solution for lower GVW vehicles. These vehicles require aluminum bodies, as steel either consumes too much of the GVW or they're forced to be underbuilt to allow minimal payload.

Standard Features

- All Aluminum 6000 Series
- Extruded Box Tubing
- Heavy Duty Long Sills and Rear Light Bar 2" x 5" 6000 Series
